Squirrel season starts next week

The Nebraska Game and Parks Commission says the state's squirrel hunting season opens Aug. 1 and runs through Jan. 31. The daily bag limit is seven squirrels, and the possession limit is 28. The commission experts say squirrels dine primarily on the nuts of oaks, hickories and walnuts. They eat other nuts and fruit when preferred foods are not available. Hunting permits

can be bought online at OutdoorNebraska.org.

Big Ten Network now standard on Time Warner

Time Warner Cable customers in Nebraska will be able to watch Cornhuskers football games on the Big Ten Network. The cable company and BTN announced Monday that BTN will be available on the company's standard service tier for customers in Nebraska beginning Aug. 23. BTN will be available on channel 24 for Time Warner subscribers. BTN is currently available to digital customers on channel 333 and in HD on channel 1333, and will remain on those channels.

Public comment sought on waterfowl suggestions

The Nebraska Game and Parks Commission invites the public to comment on its 2011 waterfowl hunting season recommendations. People may provide feedback by sending an e-mail to NGPC.input@nebraska.gov.
